## EVENT REGISTRATION

### Join us in celebrating 24 years of providing accessible and safe home modifications for children with disabilities!

Logan's Heart and Smiles builds home modifications such as wheelchair ramps, safety fences, custom beds, bathroom adaptations, and more. These modifications can be expensive and although essential, are not typically covered by insurance since they are not considered medically necessary. As a result, families pay out-of-pocket, find alternative funding, or go without.

Logan James Herr

This is where Logan's Heart and Smiles steps in. To date, we've modified over 430 homes across Wisconsin, making them safer and more accessible for children and their caregivers.

Our annual fundraiser has become a signature event, uniting our supporters with the families we serve. It's a time to celebrate and connect – where we host children and their families as our guests of honor and recognize the individuals like you who help turn their home modifications into reality.

We invite you to join us on this special day so we can help more families in 2026. Together, we will continue breaking down accessibility and safety barriers for children with disabilities.

**Getting a child in and out of their home should never be a luxury. With your support, we can make it a reality!**

Working hard!

#### Meet Henry!

As eight-year-old Henry grows, the portable ramps his family had been using to get him in and out of the house were no longer adequate. Thanks to supporters like you, Henry and his family now have a safe ramp for access which also gives Henry greater independence.

**"The ramp has been life changing for our family. We are so thankful for you all that made it happen."**

- Henry's Mom

After: Safe, reliable ramp
